NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Pre-prepared Foods Can Be Healthy As Well As Convenient. When you are short on time, frozen dinners can make evening meals easy. A little nutrition education can also make them healthy. Follow these simple tips:

- look for dinners that have less than 15 grams of fat, 400 calories, and 800 milligrams of sodium
- choose entrees (the main dish, not the whole meal) with less than 10 grams of fat and 300 calories
- add a salad or vegetable with the dinner, as most of the meals provide less than one serving of vegetables
- add a glass of skim milk or yogurt to increase calcium, which is often low in these meals or entrees

TURTLE NESTING SEASON IS HERE! The months of May thru October are the prime months for sea turtles to nest along our beaches. KSC and CCAFS have some of the only remaining pristine beaches along the East Coast of Florida. Sea turtles use these beaches in high numbers for nesting. All exterior lighting at KSC and CCAFS, not just that which directly hits the beaches, can be a distraction to these turtles causing disorientation and nest abandonment. Please, take extra measures to ensure all non-essential exterior lighting is turned off. The KSC Exterior Lighting Guidelines can be reviewed on the Environmental Program Branch website at <http://environmental.ksc.nasa.gov/natural/lighting.htm>. If you see any lights that you feel need to be turned off or have any questions, please contact John Shaffer, NASA EPB, at 867-8448. (TA-C3)
